

BENEFITS SUMMARY 2024

Trillium Health recognizes the importance of providing employees and their families with a comprehensive and valuable benefits program. Each year when evaluating plan designs and costs, consideration is given to what changes are necessary to maintain comprehensive benefits while controlling costs for both Trillium Health and employees. This document is intended to be a summary. More details will be found in the Personnel Policies in the Employee Handbook as well as within the carrier information in BenefitHub.

Required communications and documentation is located on BenefitHub. Access BenefitHub from the ADP homepage.

Accrued Paid Time Off (PTO)

Eligibility: All regular full-time and part-time employees working a minimum of 20 hours per week. Employees working less than 20 hours per week on a regular basis are eligible to accrue limited-use PTO that may be used only as paid sick leave per the NYS Paid Sick Leave Policy.

Benefit Summary: PTO runs on the calendar year and will be earned on the 15th and last day of the month. The amount of paid time off accrued by each employee will be based on the employee's length of continuous benefits eligible service with the agency. PTO accrual will increase at certain levels of employment. First accrual is pro-rated based on portion of the accrual period worked. Increased accruals will be earned in the accrual period containing the anniversary date. Employees working 25 or fewer hours per week may carry over up to a maximum of 56 hours of unused PTO, while employees working more than 25 hours per week may carry over up to a maximum of 75 hours of unused PTO.

The following chart shows the amount of annual PTO that may be accrued each calendar year and the amount of unused PTO that may be carried over.

Medical Plan Definitions

Annual Deductible

The annual deductible, based on a 12-month medical plan year (1/1/2024 – 12/31/2024), is the dollar amount of covered charges that you must pay before the plan begins to pay benefits for most services. For the Hybrid plan, the deductible is applied on an individual-by-individual basis, with a family maximum. For the HDHP, the deductible is applied on an individual or family basis. Co-pays and expenses charged in excess of allowable charges do not apply toward deductibles.

Annual Out-of-Pocket Maximum

The out-of-pocket maximum is a plan feature that caps the amount you must pay for covered expenses each 12-month plan year. When your share of covered expenses reaches the out-of-pocket maximum, the plan will pay 100% of the allowed amount for your eligible covered expenses for the remainder of the year. The out-of-pocket maximum includes deductibles, coinsurance, and co-pays.

Co-Insurance

Once you and/or your dependents have met the 12-month plan year annual deductible, you share expenses with the health plan. Your portion of these expenses is called co-insurance.

Co-pays

A set dollar amount you pay a provider at the time of service.

How Medical Expenses are covered - Copay Plan

The benefits you receive for most medically necessary covered expenses are determined as follows:

- For office visits to your primary care physician and specialist, as well as, prescription drugs, you pay a copayment and then the plan pays 100% of the charges. If you reach the annual out-of-pocket maximum copays no longer apply and the plan will pay 100% of covered medical expenses for the balance of the plan year. The annual in-network out-of-pocket maximum for an individual is \$6,500 maximum and \$13,000 on aggregate level for a family.

How Medical Expenses are covered - \$1,000/\$3,000 Deductible - Hybrid Plan

The benefits you receive for most medically necessary covered expenses are determined as follows:

- For services such as primary care physician, specialist, preventive care and prescription drugs, you will pay a copayment. For services such as inpatient, outpatient and skilled nursing facility, you must satisfy the annual deductible before the plan begins to pay benefits. Coinsurance applies after the deductible. The plan has a \$1,000 per individual deductible; to a maximum of three individuals meeting the \$1,000 deductible (\$3,000 deductible maximum).
- The plan's coinsurance is 80%/20%, meaning that for services that have coinsurance, the plan pays 80% of the charge and the participant pays 20% of the charge after the deductible is met.
- If you reach the annual out-of-pocket maximum, copayments and co-insurance no longer apply and the plan will pay 100% of covered medical expenses for the balance of the plan year. The annual out-of-pocket maximum for an individual is \$3,000; family contract would have a \$9,000 total out-of-pocket.

How Medical Expenses are covered – \$1,600 High Deductible Health Plan

The benefits you receive for most medically necessary covered expenses are determined as follows:

- For services except preventive care and preventive prescription drugs, you must satisfy the annual deductible before the plan begins to pay benefits. Once the deductible is met, coinsurance applies. The plan has a \$1,600 per individual deductible; and \$3,200 for all other tiers.
- The plan's co-insurance is 80%/20%, meaning that for services to which the co-insurance applies, the plan pays 80% of the charge and the participant pays 20% of the charge after the deductible is met.
- If you reach the annual out-of-pocket maximum, coinsurance no longer applies, and the plan will pay 100% of covered medical expenses for the balance of the plan year. The annual out-of-pocket maximum for an individual is \$3,000; and all other tiers would have a \$6,000 total out-of-pocket maximum.

How Medical Expenses are covered – \$3,000 and \$6,500 High Deductible Health Plans

The benefits you receive for most medically necessary covered expenses are determined as follows:

- For services except preventive care and preventive prescription drugs, you must satisfy the annual deductible before the plan begins to pay benefits.
The out-of-pocket maximum on these plans are the same as their deductibles, therefore once the deductibles are met, any additional services the plan will pay 100% of covered medical expenses for the balance of the plan year.

Plan Design components of an HDHP:

- Plan does not pay any benefits including prescriptions until the deductible is met except preventive care and preventive prescription drugs as listed on Excellus' published Preventive Drug List which is updated annually.
- Once the deductible is met, you pay coinsurance with the health plan until you reach your out-of-pocket maximum. If the deductible and out-of-pocket maximum are the same, services will be covered in full once the deductible is met.
- All out-of-pocket costs and amounts paid toward the deductible apply toward the out-of-pocket maximum.
- By participating in an HDHP an employee is eligible to participate in a Health Savings Account (HSA).
